Product Specification – You-Attend 1.0, Dec 2025

Product Description

You-Attend is an attendance tool that allows instructors to track student attendance in a variety of ways. Setup is easy as there are no registers to create. We also offer exportable reports and can tailor them to satisfy your needs (see Options). Lastly, the tool can be connected to the grade book to automatically update a student's grade when a new entry is made. Contact the sales team at You-Attend to find out how our smarter attendance tool can help you and to request your free 30-day trial.

Features

- Three entry options: manual (instructor enters); in-class (code entry); online (automatic entry)
- Automatic registry creation (enter start and end dates and days course meets)
- Customizable attendance codes including partial credit availability
- Gradebook integration
- Exportable report
- Easy set-up and editing capabilities
- Interchangeable entry options (go from manual to in-class and back with no loss of data)

Pricing

You-Attend's pricing structure is based on institutional FTE (full-time equivalency) as follows:

- <5,000 FTE = \$2,500 annually
- 5,000 – 10,000 FTE = \$4,000 annually
- 10,001 - 25,000 FTE = \$8,000 annually
- > 25,001 = \$15,000 annually

Technical Specifications

Device independent

You-Attend is a device-independent and cross-platform solution. It should work with:

- all commonly used online devices: pc, laptop, Chromebook, tablet, smartphone, and more
- all major operating systems: Windows, Chrome, Android, iOS, macOS, and more
- all major browsers:
 - for laptops and PCs: IE7+, Edge, Chrome, Firefox and Safari
 - for mobile devices: Safari and Chrome on iOS devices, Chrome on Android devices, Chrome and Edge on Windows Phone

Fully server-based, no software downloads or installation

Neither the customer nor the users need to download or install any software for You-Attend to work on their computers and/or mobile devices.

Product hosting

You-Attend is hosted in a secure, third-party cloud-based environment.

Javascript support

If the user's web browser does not support JavaScript, the You-Attend widget will not load.

Product Components

SAAS application

The core of You-Attend is the SAAS (software as a service) application, hosted by You-Attend, and accessible to all users after successful implementation of the LTI integration in the customer's learning management system.

Implementation instructions

Clear implementation instructions and other documentation are included and available to the customer.

Requirements and Limitations

Support for JavaScript

The user must use a web browser with support for JavaScript for full functionality provided by You-Attend.

Languages Supported

At this time, English is the only language supported by You-Attend.

Intended Use

Customers may only use You-Attend in accordance with this product specification. Any other use of You-Attend is not considered intended use.

Disclaimer

Features listed in this document are guaranteed only if You-Attend has been implemented according to our implementation guidelines. Specifications and features as described in this product specification can be changed by the owner without prior notice.
